## Allowable Subject Matter

1. Claims 1-7 are allowed.

2. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, Sawamura et al (US 6,535,170 B2) discloses a dual band antenna device comprising first and second inverted-L antenna elements. Sawamura, however, fails to specifically teach the configuration, in combination with other limitations, comprising a dielectric pellet mounted on the first surface on the microstrip transmission line; and a bifurcated planar inverted-L antenna (PILA) component mounted on the first surface, wherein the PILA component is electrically connected to the ground plane and having first and second arms which extend over and contact a surface of the dielectric pellet, and wherein the first arm contacts a different area of the surface of the dielectric pellet than the second arm.

Claims 2-6 are allowed for depending on claim 1.

Regarding claim 7, Sawamura discloses a dual band antenna device comprising first and second inverted-L antenna elements. Sawamura, however, fails to specifically teach the configuration, in combination with other limitations, comprising a bifurcated planar inverted-L antenna (PILA) component mounted on the first surface and electrically connected to the groundplane, wherein the PILA component is electrically connected to the groundplane and comprises first and second electrically connected arms; and a dielectric pellet comprising a surface connected to the first and second arms, wherein the dielectric substrate includes an aperture that is disposed beneath the dielectric pellet, wherein the pellet is connected to a coaxial feed line, and wherein the first arm of the PILA component contacts a different area of the surface of the dielectric pellet than the second arm.

Application Number: 10/586,155 Page 3

Art Unit: 2821

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## **Inquiry**

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hoang V. Nguyen whose telephone number is (571) 272-1825. The examiner can normally be reached on Mondays-Fridays from 8:00 a.m. to 4:00 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Douglas Owens can be reached on (571) 272-1662. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

5. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
